

47. Apparatus according to claim 46, characterized in that the support machine is operable to apply crowd forces to the apparatus.

*AI*  
48. Apparatus according to claim 46, characterized in that the support machine is able to supply pressurized fluid to the apparatus.

REMARKS

The above amendments are presented in order to place this application in better condition for examination.

Respectfully submitted,

  
John Smith-Hill
